Q12. As you may know, California now has a top-two primary system for statewide races in which voters can cast ballots for any candidate, and the two candidates receiving the most votes regardless of party will advance to the general election. If the June primary for governor were being held today, who would you vote for:

Methodology

On behalf of the Latino Community Foundation, Latino Decisions surveyed 900 Latino adults between January 6-14, 2018. Interviews were collected via landline, cell phone, and web. The phone portion was conducted by live interviewers who were bilingual and administered the survey in language of preference of respondents. The online portion was conducted in a respondent self-administered format, and the survey and invitation was available to respondents in English or Spanish. The full data are weighted to match the adult population in the 2016 Census ACS 1-year data file for age, gender, education, nativity, ancestry, and voter registration status. A post-stratification raking algorithm was used to balance each category to the ACS estimates. The survey carries a margin of error of +/- 3.3 percentage points. For questions on methodology please contact: Dr. Matt A. Barreto, 909-489-2955
